About

Front-end Developer with over 3 years of experience, including 2 years working within the Web3 ecosystem. Specialized in React, Next.js, TypeScript, and Tailwind CSS, building modern, responsive, and scalable web applications. Experienced with version control using Git and GitHub, as well as task management and development workflows using Jira. Focused on performance, user experience, code quality, and front-end best practices.

Experience

Triad Markets - Front-end Engineer - Junior ago 2024 – the moment

- Built and maintained responsive web interfaces using Next.js, TypeScript, and Tailwind CSS
- Improved user experience and application performance across multiple platform features
- Worked on white-label platforms, fixing bugs and improving UI consistency across different projects
- Collaborated with designers and developers in daily meetings and sprint alignments
- Contributed to the rebranding of an international platform, including PR reviews, task organization, and branch integrations
- Developed a large portion of the UI for an NFT marketplace platform on Solana

AltoTech - Front-end Engineer - Trainee jan 2023 – jun 2025

- Developed responsive interfaces using HTML, CSS, and JavaScript
- Worked collaboratively with the team through technical workshops and project alignments
- Assisted in building and maintaining front-end features and user interfaces
